Melmark is continually expanding and raising the quality of service delivery systems in internal program delivery and throughout the country by disseminating and replicating the Melmark Model of Program Development and Clinical Treatment. Through an advanced program called EnvisionSMART™, Melmark showcases professional practitioner manuals, proprietary software and a four-book practitioner series. Combined, this program provides an all-encompassing array of well-researched, documented tools to enable other providers to utilize the Melmark Model for Program Development.

This will elevate the standard of services, while addressing every aspect of the critical educational, clinical and administrative functions that are vital to evidence-based, special education programs.
